Opis produktu

2023 Limited reissue white vinyl
Limited to 300 copies!!

Florida's DEICIDE hold high the banner of relentless, brutal, evil and satanic death metal. The band's 11th studio album "In The Minds Of Evil" from 2013 features 11 tracks of pure and utter musical blasphemy produced by Jason Suecof (Trivium, Death Angel, The Black Dahlia Murder, etc.). It's the merciless drumming, the gut wrenching riffs, the shrieking yet melodic solos and the buzz-sawing bass which will nail you to the ground while Mr. Benton roars in your face like Nero's fiercest lion. "In The Minds Of Evil" is nothing less than another great example of flawlessly executed unholy death metal by the pioneers and godfathers of the style.
