Opis produktu

Limited Transparent Red vinyl, gatefold, 32-page booklet.

The crown jewel of Finnish Death Metal, *Slumber of Sullen Eyes* by **Demigod**, reissued in a band-approved edition. Features a new vinyl master from the original source by **Noise for Fiction**, comes in a gatefold sleeve with a booklet featuring a lengthy feature by **Hippo Taatila** and some visual memorabilia. Available on Svart exclusive Pink/Green/Black Marble edition, Transparent Red edition and Classic Black edition.

Together with bands like **Demilich**, **Abhorrence**, **Disgrace**, **Xysma** and **Sentenced**, Demigod from the wastelands of Loimaa, southern Finland, put Finland on the map in the global death metal scene in the late 80's and early 90's. Having risen to underground fame with their demo *Unholy Domain*, *Slumber of Sullen Eyes* was a hugely expected debut album. When it was finally released in 1992 after a complicated creation process at **Tico-Tico Studios** in northern Finland, it was received with open arms and drooling excitement by the then very active underground death metal scene.

That scene was, however, short lived,and by 1994 pretty much every band had switched from death metal to something else entirely. What was left after the bands had left the building was a number of classic albums that constitute the legacy of Finnish Death Metal. Among them, *Slumber of Sullen Eyes* is one of the most original and ferocious. There was nobody like Demigod.
