Opis produktu

Crystal clear and red marbled vinyl. Limited to 400 copies.
Die-cut outer jacket, printed inner sleeve, and double sided insert, with gold Pantone colour.

Since forming in 2009, DER WEG EINER FREIHEIT has carved out a singular place in modern black metal, blending relentless intensity with a philosophical core. Rooted in the genre's foundations yet constantly evolving, the German quartet is known for its emotional depth, compositional complexity, and striking live presence. On sixth album 'Innern', the band turns inward with devastating clarity. Each track offers a meditation on human fragility and existential transformation, shifting between blistering aggression and haunting serenity. "Marter" explores shared suffering as a path to transcendence, "Eos" imagines nature reclaiming a blood-soaked earth, and "Forlorn" becomes an intimate plea for emotional refuge, sung in English to underscore its universality. The interplay between soaring guitars, pulsing bass, and intricate percussion frames Nikita Kamprad's visceral vocal performance with precision and raw urgency. Produced, mixed, and mastered by Kamprad himself, the album captures both immediacy and atmosphere, placing the listener in direct confrontation with the void.
