Opis produktu

Longtime fans, HELLS HEADBANGERS are proud to present Cut Carve Rip Serve by DERANGED on vinyl for the very first time. Originally released in 2011, this eighth full-length captures the Swedish masters of gore-soaked, technically charged death metal at their most refined and ruthless.

From the opening blast, Cut Carve Rip Serve delivers everything one expects from DERANGED: relentless speed, surgical precision, and the unfiltered ferocity that has defined their legacy since the early 90s. The album’s concept is perfectly mirrored in Jon Zig’s unforgettable cover art, a macabre twist on Norman Rockwell’s “Freedom from Want,” which instantly sets the tone for the carnage within.

Musically, the record stands as a masterclass in controlled chaos. Tracks like Blood on Pale Hands and The Human Guillotine strike a perfect balance between groove and intensity, showcasing the band’s ability to inject hooks and subtle melody into their trademark brutality. Guitarist Thomas Ahlgren lays down thick, flesh-ripping riffs while Rikard Wermén’s drumming maintains its reputation for machine-like precision and unpredictable tempo shifts. Andreas Johansson’s bass provides a dense undercurrent that glues the chaos together with power and clarity.

At the forefront stands vocalist Martin Schönherr, whose guttural delivery recalls the early ferocity of Chris Barnes yet brings a distinct identity that separates him from previous DERANGED frontmen. His performance embodies the album’s violent energy, giving every lyric a tangible sense of menace and conviction.

The production is loud, sharp, and punishing, enhancing the album’s impact without losing the raw edge that defines true death metal. Cut Carve Rip Serve is a reminder that DERANGED continue to thrive where others fade, merging technical skill, relentless aggression, and old-school spirit into a sound unmistakably their own.

Over a decade later, this 2011 slab remains one of the band’s fiercest works, and with its long-awaited vinyl release, Cut Carve Rip Serve finally receives the blood-red treatment it deserves.
