Opis produktu

Red & black marbled 12" vinyl in gatefold sleeve with A2 poster. Limited to 250 copies worldwide!

With the release of their second album "Phoenix Rising" DESTROYER 666 reached a new dimension. Terrorizer (UK) saw the Australian warriors enter "a new phase that mixes the best of old school barbarity with quality songwriting". Dutch magazine Aardschok chimed into this praise by giving 90/100 points with many critics following suit. Yet time proved to be the real test for "Phoenix Rising" and the album passed this challenge with flying colours as it continued to sell since its original release late 2000.

Due to popular demand and persistent interest "Phoenix Rising" was released in a carefully remastered edition in 2012.

The Australians added spectacular new artwork and liner notes as for the 2012 edition of "Cold Steel... for an Iron Age".

Artwork by Zbigniew M. Bielak.
