After 12 years this is the triumphant return of Hellenic darkness!

Followers of Deviser all over the world who still consider their early releases as hidden gems of their collections finally get new music of these Greek black metal masters: “Evil Summons Evil”. It’s possibly the most important album of their career. An album that will surely leave its mark on the global metal community.

Produced by the talented Psychon of Septicflesh who has taken over the mixing and mastering of the album and recorded exclusively at Soundabuseproductions in Athens.
