Opis produktu

So this is where it all began... Sure all three tracks off DISMA's debut demo were later re-recorded for their massive debut album, *Towards The Megalith,* but somehow those early and rawer versions have a distinctive vibe of their own. The genre of death-metal, back then in 2009, was in dismay is a euphemism and somehow, this “us against the rest of the world” mentality gave that initial recording an extra edge.

Of course, *The Vault Of Membros* has been reissued a few times before – including a now very highly collectable version by the esteemed and now defunct, Detest Records. But to put it mildly, this is THE ultimate version. Pressed on high-quality 12” vinyl, cut at 45 RPM. A standard of quality with Doomentia Records.

This is a limited run pressing of 500 copies – 400 on black vinyl and 100 on coloured vinyl (black with red).

So here’s a new chance to grab a piece of death metal history!

- Total run of 500 copies
- 100 copies on colored **SOLD-OUT**
- 400 copies on black wax
- Printed sturdy inner sleeve
- Cut at 45 rpm
