## Opis produktu

A **limited white vinyl edition** of **Dødheimsgard**'s classic 1995 debut, **Kronet til Konge**.

A Black Metal masterpiece of Northern grimness.

-----

To fans of black metal, Dødheimsgard need no introduction, being as they are one of the great purveyors of the Norwegian Black Metal creative evolution. The band was formed in 1994 by Aldrahn (Thorns) and Vicotnik (Ved Buens Ende). The early incarnation was that of a raw and at times melodic black metal band, with their debut album 'Kronet Til Konge' also featuring Darkthrone's Fenriz on bass.

Over time Dødheimsgard became known as one of the premier avantgarde black metal acts after a stylistic shift away from their more old-school origins, as displayed on the band's most recent output; 'A Umbra Omega' and 2023's universally-lauded magnum opus, 'Black Medium Current'.
