Out from a concept of misery and suffering, our feeble and dying world is the subject of a new hymn to its demise. "Mortal Coil" is Dödsrit's third full-length, featured on a yet short career though wholly filled with soul drenching moments. Featuring four tracks, Dödsrit's "Mortal Coil" hails the smothering ashes of purgatory's flames by forging a wall of soultearing riffing, blistering belligerence conjoining melody with aggression, a genuine blaze of cacophony and heart-wrenching melancholy.

Consuming all in its path, this relentless maelstrom of grief finds its vision on the thunderous production - utterly powerful and blisteringly organic in all its dynamism. Such sonic virtues get sheerly enhanced by the lively rhythmic section and uncompromised ferocity. Whether on blastbeating outbreaks, D-beat infused vigour or further atmospheric escapades, pulsing impulses carry an expression and sense of craftsmanship that amazingly translate emotions into cataclysmic beats.

Drenched in anguish, a scourged narrator of tragedies spews every single word with the blood and fiery distress of a heart burdened by the weight of our sorrowed existence, a shivering performance of a tongue absorbed in the (dis)comfort of eternal grief.
