Opis produktu

Doedsmaghird is the new project from **Yusaf “Vicotnik” Parvez**, the mastermind behind longstanding leaders of the Norwegian metal scene, **Dødheimsgard**.

Omniverse Consciousness is an instinctive and raw release revealing a parallel world of dark extremity.

Black vinyl edition with printed inner sleeve.

In the wake of the monumental release of Dødheimsgard’s 2023 magnum opus, ‘Black Medium Current’, & following a period in pursuit of creating something inspired by the pioneering work of the revered ‘Satanic Art’ & ‘666 International’ releases, Yusaf “Vicotnik” Parvez brought Doedsmaghird into being as a parallel world & malformed companion of sorts, by infusing some of the primal grim essence of what motivated those genre classics, refined and reflected back into the modern age under a new mask with debut album ‘Omniverse Consciousness’.

In contrast to modern day Dødheimsgard, the origin and process of Doedsmaghird - rather than one of perhaps more meticulous and scrupulous focus - was one intentionally driven by instinct without over-thinking; to give flesh to something very real & honest sounding in its unfolding chaos and spontaneity. This sense of almost raw urgency was utilised to reflect the more time-restricted recording session experiences of Vicotnik’s earlier days, which in turn necessitated at times on-edge performances and more “in-the-moment” unreplicable magic.

The compositional style of ‘Omniverse Consciousness’ itself is primarily about embracing those intense moments and capturing this as the pure unbridled source; the album a journey of unyielding darkness, with lyrics conjured and delivered as a series of poignant & potent snapshots and blackened musings, reflecting upon and revelling in the despair amid an unravelling decrepit world.

‘Omniverse Consciousness’ was recorded and mixed by Vicotnik himself, with mastering work overseen by Tom Kvålsvoll at Kvalsonic Lab in Norway.
