Opis produktu

Re-issue containing a bonus track and revised artwork.

With the forces of fire and ice – darkness and light DRAUGURINN summons us to bear witness to her second creation “Myrkraverk”. It is a ritualistic work of art, derived from the ancient pulse of Icelandic traditions and lore, each song a sacrifice to the elements of nature and the powers that dwells therein. With drums and runes, melody and chants she explores something that lies hidden, a world or a state of mind we do not often get to travel to. “Myrkraverk” possesses you with a hypnotic calm and leaves you with the question of what might be out there, within, underneath and above.

Tracklist:

1. Móðir ringulreiðarinnar
2. Urðarmáni
3. Andsetin
4. Þurizas
5. Nornaskapur
6. Kvæði Uruzar
7. Aska
