Opis produktu

Black 12" vinyl (33 rpm) in black sturdy inner sleeve in jacket.
Fourth pressing 200 copies worldwide.

DRUDKH have written one of the most successful underground Black Metal stories with their previous eight albums. Now “Eternal Turn of the Wheel” witnesses the Ukrainians returning to their atmospheric black roots, which are most loved by their dedicated following around the globe. Gone are the progressive elements characterising their previous release “Handful of Stars” (2010). DRUDKH’s newest masterpiece owes more to their cult debut “Forgotten Legends” (2003) and the cinematic soundscapes of “Autumn Aurora” (2004) with some of the traditional influences rising on “The Swan Road” (2005). Fans of the slightly progressive “Blood in Our Wells” (2006) will also find their moments. Like the partly acoustic “Songs of Grief and Solitude” (2006) “Eternal Turn of the Wheel” offers a more melodic approach as the harsh “Estrangement” (2007) and ties in well with the widely acclaimed “Microcosmos” (2009) album. DRUDKH offer Slavonic Heathen Metal at its best and the perfect soundtrack of winter!
