## Opis produktu

Death metal powerhouse Dying Fetus return with their long-awaited new record War of Attrition. Masterminded by guitarist/vocalist John Gallagher and his hand picked kill-team, War of Attrition advances the band's devastating assault and destroys everything in its path. From the first song to the last, the patented 'Fetus combination of punishing slam riffs, frenzied guitar work, and utterly savage dual-vocal assault and overpowers the listener. War of Attrition reaches an altogether new and focused level of brutality for Dying Fetus, and expands and cements the legendary status of this renowned US metal institution.
