Opis produktu

Here we find ourselves, among the Canadian miscreants Egregore whereupon they return from whence the wind howls like a damned choir and the Earth knows no master, to chart a broader sonic wilderness via 'It Echoes In The Wild'. And much as sea-rogues and freebooters sought fortune upon blackened waters, so too does Egregore venture musically into diabolic and ungoverned lands.

Presenting something more expansive, elemental and untamed on 'It Echoes In The Wild', the early occult Black Death Metal lunacy embraces atmospheric breadth equally alongside primitive force to delve deep into not only geographic wilds, but the psychological, esoteric and spiritual hinterlands at the edges of complete madness. Dark invocations and secret tongues draw forth echoes from forest and fen, cave and cliff, tempting the temporally tethered to receive the curse, all the while driven by a primal, unknowable sardonic menace.

Though the voyage be perilous, to succumb to 'It Echoes In The Wild' is to become ensconced in a lawless dominion of the soul in service of a higher call. Mirroring nature's unbridled forces and the hidden echoes that dwell within, Egregore's second album takes the band's mystical insanity and magickal perversion to the edge of the abyss and plunges forward.

released March 20, 2026

OFFICIAL LINE UP

Shawn Haché aka Essentia Collapse:
Drums, Vocals, Acoustic Guitars

Sebastian Montesi aka Catastrophe Saturna: Lead Guitars, Acoustic Guitars, Vocals, Synth

Phil Fiess aka Helios Thread: Bass, Vocals
