Opis produktu

Classic Jewelcase Edition w/ booklet and designed download card.

This is Umbra - The shadow, the unseen, the weight beneath the light. With her second album, Ellereve descends deeper into emotional and sonic terrain - a bold evolution shaped by vulnerability, intensity, and contrast.

Umbra is a record of duality: fragile yet forceful, introspective yet eruptive. It weaves together a rich palette of genres - from ethereal atmospheres to crushing post-
metal riffs and carries a sense of tension throughout, as if always moving between collapse and clarity.

This time, the sound is heavier, darker, more defiant. Drawing from the depths of post-metal, doom, and blackened textures, Ellereve explores the complexity of emotion without ever losing the haunting, cinematic essence that defines her musical identity. An unexpected shift, perhaps - but one that feels necessary. Umbra doesn’t just follow a path. It carves one.

Umbra was recorded & produced together with Salomon Appiah, with mix and mastering duties handled by Markus Stock at Klangschmiede Studio E.

Tracklist:
1. An avalanche of shudders
2. Like a moth to a flame
3. Crawl
4. Shores of solitude
5. The funeral
6. Irreversible
7. The veil of your death
8. Swallowed & disguised
9. Lost in longings
10. Unravel
11. Trauma
