Opis produktu

Endlichkeit is an anti-progressive, isolationist black metal project. Its lo-fi music has grown from engaging with the traditional and the individual. Teile I-VIII has been compiled by Endlichkeit with the kind help of Amor Fati Productions (Germany), exclusively. The original tracks, coming from three singular tapes, have been slightly edited for a new master of the tracks included, solely for the purposes of a smooth CD listening experience. Teile I-VIII is the first retrospective of Endlichkeit and consists of compositions from MMXII to MMXIV. Id est the first three Endlichkeit volumes which were released separately as cassette tapes by Fallen Empire Records (USA). The fundamental message of Endlichkeit is set on the existential and ontological establishment of the authentic being-toward-death. The nature of Endlichkeit is ultimate solitary.
