PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!

Two fresh yet rotten black metal units from the very opposite sides of our Earth team up for a full length rite in the darkest forest. Enjeduana from Bogota, Colombia for more pagan inspired fire and Necro Ritus from Hamina, Finland for the dead and the Satanic. Aurally bound together by the most powerful and fierce black metal that doesn't let a single soul rest while it plays. Visually unblessed by an eyeball freezing artwork by the master Goatprayer of the Witchcraft fame. Well balanced split album for those into ripping raw underground black metal that'll never be "hip" or "cool" or accepted by the mainstream in any level, but always burning cold for the maniacs pure to die for. Ten tracks in 41 minutes, packed in a matte laminated digipak cover.
