Opis produktu

Swedish Death Metal pioneers and Swedish Music Hall Of Famers, Entombed, release their 25th anniversary edition of their monumental 1997 album "DCLXVI - To Ride, Shoot Straight & Speak The Truth". Finally reissued and packaged as the band originally intended it, and newly remastered by Magnus Lindberg at Redmount Studios (Hellacopters, Cult of Luna, Imperial State Electric, Misery loves Co, Lucifer and Refused, to name a few), this all time classic is now available again
