Opis produktu

Jewelcase with extensive booklet!

Six keys opened six doors, and their poison crept into our world.

Five years has passed since the doors of perdition were opened with the release of Escumergament’s debut studio album ...ni degu fazentz escumergamënt e mesorga..., and now it is time to explore the corrupted wastelands at these entrances.

Apparebat Eidolon Senex speaks of anger, resignation and misfortune. A glimpse into the smoldering ruins of temples and oceans filled with corpses. Of haunting spirits and mad gods. Of betrayal and unfathomable loss. Seven songs where the demon appears at different places depending on time, place and intent.

Just like ...ni degu fazentz escumergamënt e mesorga..., Apparebat Eidolon Senex was recorded in the Chapel of the Wanderers on old and unpredictable equipment during days and nights of storms and torment.

These spells of uncompromising black metal are designed to curse and bring ruin.
