Opis produktu

PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!

US 2023 album of Satanic death metal. Heavy and raw as ever, with added darkness of Hell and this time even some ghastly keyboard parts, Lucifers Crown delivers American death metal uncompromised and underground the way it should be. Driven by the most powerful riffs in the business and always immune to any trend or fashion of the month pestering the scene, Evil Incarnate stays in the very top of their game. Simply crushing. European cd pressing of the album with exclusive artwork. Bestial Burst)
