Opis produktu

CHAOS 029

Amongst wild structures embroiled in an endless fight of domination, amongst dissolving forms pretending to know right and wrong, trying to justify their own being. In between this fuss you can find a certain figure that doesn't care about all this, a figure that is and does not pretend to be. Complex in it's simplicity it satisfies itself. "Schattenbringer" does not bring truth but all it's different kinds. Constructs made of contrast.
