Opis produktu

Our first release marked the first time EVER on vinyl, the debut album "Passage of Life" from the Legendary Swedish Cult EXCRUCIATE! Having been limited to 300 copies, it sold out almost immediately upon its release date.

We are now proud to announce that this amazing gem will be available once again, this time on CD format. Featuring the original, unaltered classic artwork supplied by Kristian Wåhlin aka Necrolord (Dissection - The Somberlain, Storm of the Light's Bane, Emperor - In the Nightside Eclipse). This amazing CD will presented with classic band photos, lyrics and liner notes by Hempa. To retain that classic feeling of nostalgia, we've incorporated elements from the original 1993 Thrash Records CD layout with attention to detail, even down to the logo, typeface and colors.

LIMITED TO 500 COPIES!
