Opis produktu

With Falls of Rauros' 4th full-length album, Vigilance Perennial, a vital complexity and multifaceted emotion is at the forefront of this stunning quartet's musical creativity, drive and evolution. Ever since the opening notes of the Hail Wind and Hewn Oak debut, Falls of Rauros have never put on a mask to hide behind a false facade. Yes their sound has indeed grown to embrace an otherworldly atmosphere that feels almost spiritual, but their songs possess endlessly layered riffs and thoughts from the heart that feel as real as the earth squishing up between your toes as you stop to appreciate the sound of the wind sailing through the pines. Such an organic flow and endlessly dynamic rise and fall elevates the 5 songs of Vigilance Perennial from a multi-layered bout of aggression to beautiful moments of music that twist with a powerful and honest emotion rarely experienced within a musical mindset that others refer to as "black metal".

Vigilance Perennial finds Falls of Rauros once again challenging the status quo, for the pure honesty and obvious love for truly unique songcrafting has in part distanced this band from any obvious genre defining terms. This music bleeds from the heart in a giving way, and we, the Bindrune and Nordvis alliance are proud to share our brothers' stunning and healing work with the world.
