Forged in the aftermath of relentless movement and creative unrest,
London's Final Dose returns with Endless Woe, an EP of vicious, and unrelenting hostile blackened punk violence.

"Endless Woe" follows up the debauchery of "Under the Eternal Shadow" with five tracks that strip their blackened punk assault to its rawest core, distilling the band’s ethos into a harsher, more confrontational form. Short, vicious, and devoid of excess, Endless Woe sharpens aggression into purpose, pushing ferality and despair to the forefront.

Yet beneath the surface violence, Endless Woe carries a suffocating emotional weight. Subtle melodic fractures, desolate pacing shifts, and moments of stark bleakness inject a sense of hopeless repetition, mirroring the EP’s title in both sound and spirit.
no catharsis, no escape, only the grinding continuation of inner collapse and inner turmoil

To be released by Wolves of Hades on January 28th on LP and MC, Endless Woe stands as a concentrated statement of fury and misery.
