With an inception heading back to the year 2020, UK’s Final Dose have built a reputation from its feral blend of black metal’s icy malevolence and the raw, uncompromising power of punk through the release of a demo, an EP and a full-length album in 2023.
With the experience of touring across the US and Europe granted by the excellent reception of aforementioned “Void Inside”, Final Dose return with a vengeance, a bone-crushing slab of savagery and frostbitten fury entitled “Under the Eternal Shadow”.

Merging Black Metal and Punk is not in any way a novelty, however few acts have managed to imply the solid edge of both approaches in a such a vehemently organic fashion as the UK horde. From the very first seconds of opener “Eternal Winter”, a clear, powerful, in-your-face production compels the razor-sharp virulent riffs to gleam and cut through the ether like an electrical storm, whereas pounding fast beats function as a taser for the body, a remarkably pulsing mania which serves as a marching order for the wild raging vocals, a performance which renders gist to each word yelled in anguish.

But, beware. “Under the Eternal Shadow”’s ornamentation is yet provided by various elements such as Dungeon Synth and Folk, details that supply the record with more than a Black Metal/Punk substance. The brilliant slower moments offer an extra dose of bleakness and despair to the filthy fury, together with the lugubrious clean chords, filled with disheartening melody. These traits blazingly give shape to the lyrical concept of the album, the pain and gloom of mental decline, the misery of the societal ravishingly decay. This layer of mournfulness genuinely confers momentum to Final Dose’s art, a sense of impending doom which sticks to the brain and captures the heart, making “Under the Eternal Shadow” much more than a musical record, but a tome of inspiration through the ashes of the world’s turmoil and dismay.

Wolves of Hades is proud to be releasing on April 11th these hymns of total blackened debauchery on LP / CD / MC and Digitally.
