Opis produktu

Release date June 19th 2026, comes in a beautiful gatefold on two black smoke marble vinyls, with insert, limited to 150 copies.

Intense razor-sharp Swedish Black Metal attack!

Formed in Stockholm in 2016, Flykt emerged as an essential creative outlet for those involved and as a sign of defiance amid decay, operating from the periphery rather than the center. In 2019, the band released its debut full-length album, "Charnel Heart", through Folter Records.

Later the same year, Flykt followed up with the two-track EP "Through the Earth and Through the Sun".

Since then, Flykt has continued its work away from view, shaping the material for its second full-length album.

- The CD comes in a 6 panel digipack with a 20 page booklet
- The 2-LP comes in a beautiful gatefold with insert
- Mixed and mastered by Karl Daniel Lidén at Tri-Lamb Audio (Craft, Bloodbath, Demonical, Katatonia)
- Artwork by Khaos Diktator Design (Nordjebel, Gaerea, Wyrd, Spectrum Mortis, Saor)
