Opis produktu

Here it is, the fourth installment of our Forefather reissues! Ours is the kingdom shows more diverse and energetic songs after Engla Tocyme, which was more sombre and reflective. Ours is the kingdom includes many of the bands' classic tracks and with over one hour playing time, this is also the longest album by the Anglo-Saxon legends. With the bonus track included, the total is even pushed over 65 minutes. Fighters of the Angelcynn was originally written by Forefather for the Folkearth project, but the track has been completely re-written, re-recorded, has new lyrics and truly blends in with the album perfectly. To further improve this reissue, the album has been remastered by the band themselves. The original version suffered from a rushed mastering job, which was actually never sent to the band for approval. This new version has been carefully remastered by the artists themselves, with minimal change in sound yet now revealing the full dynamics not present on the original.
