Opis produktu

WEREWOLF RECORDS is proud to present FÖRGJORD's highly anticipated sixth album, *Ruumissaarna Pt. 1*, on CD and vinyl LP formats.

For years one of Finnish black metal's best-kept secrets, in recent times have FÖRGJORD sprung to prominence among the adventurous as practitioners as a strangely alluring sort of obsidian. Although existing since the mid '90s and patiently parceling out their recordings in an almost-clandestine manner, the upswing in activity began with FÖRGJORD's third album (and first with WEREWOLF), *Uhripuu*, in 2017 and was followed by the equally challenging *Ilmestykset* in 2019 and the comparatively more rockin' *Laulu kuolemasta* a year later. Among those three full-lengths, the Finnish trio solidified and strengthened their strident aesthetic - malodorous melodicism, hypnotically rendered through a ripped-raw soundfield, making their strangely hummable ruminations on triumph & tragedy sound all the more alien, each album unified yet unique within that aesthetic - and made it all seem effortless. And, at last, it seemed that the name FÖRGJORD was no longer a "secret."

Now, two years later, while the world is still cursed, FÖRGJORD return with *Ruumissaarna Pt. 1*. The band's sixth album to date, its title translated to English means "Sermon of deceased," and is part of a larger *Ruumissaarna* recording session: a thematically unified trilogy, but each to be viewed as independent entities. As such, it's perhaps logical that this FÖRGJORD full-length draws in elements of its three long-form predecessors - and of course, the long history of the band itself. Thus, we find the anti-"anthem" anthemics they've so made their own as well as a once-again-filthier fury; most compellingly, there's many more downtempo moments here that wobble between tense, red-eyed resignation and a sort of stifled-violence melancholy, as always draped in a blizzard of fuzz and mysticism. To be sure, there's many "rockin'" moments, as well, but they're whipped into ever-alien shape by FÖRGJORD's characteristically bent-askew melodicism and grim 'n' ghoulish execution. And, as the album feverishly flows onward, it takes on a gloomier aspect, creating an immersive full-length experience. To think that *Ruumissaarna Pt. 1* is "the most important one of the trilogy" is daunting, indeed...

"*Ruumissaarna Pt. 1* is about the darker side of Finnish man's nature," explains founding guitarist/bassist Valgrinder. "It tries to find and understand the reasons which make ordinary man a beast, *a killer*, when opportunity and circumstances are right - when things move in a certain direction slowly but surely, until it reaches the point where there's no turning back anymore. It's about our inner demon - The Perkele - who is living inside us and just waiting to get the opportunity to take over. And of course, it's also about those innocent ones who have to take the consequences. *Ruumissaarna* isn't fantasy nor fiction; it's the everyday darkness we want to deny. It's the darker side of Finnish culture and our nature."

When nature calls, rely on FÖRGJORD to deliver the goods. *Ruumissaarna Pt. 1* is coming for you, whether you're ready or not.
