Opis produktu

CD Jewel Case, 8 page booklet including release explanation and photos.

Forndom was born as a reflection of bygone days – of the forests and open landscapes of central Sweden, as well as its historical heritage. Similarly, coinciding with the project’s nine-year anniversary, Ludvig Swärd muses over his own musical past.

Following the enthusiastic reception of “Och med vinden ack de gunga” – Ludvig’s re-envisioning of his droning masterpiece “Jag vet ett tempel stå" - comes “Alster”, a piano work of contemporary classical with a distinct Scandinavian atmosphere. Six Forndom compositions in brand new interpretations alongside "Aska", a fresh take on an old unreleased song.
