Emerging once again from the abyssal depths of the underground, FOSSILIZATION return with "Advent of Wounds", a work of sheer ferocity and oppressive gloom! A relentless onslaught where its frantic and inexorable rhythms hammer with suffocating intensity, while riffs coil like sepulchral invocations in a maelstrom of death, doom, and blackened chaos. Bleak, crushing and claustrophobic, "Advent of Wounds" is a summoning of despair that drags the listener into a chasm where brutality and anguish entwine. A suffocating testament to extremity that confirms Fossilization as one of the most formidable forces in contemporary death metal!

For fans of Dead Congregation, Krypts, Spectral Voice, Antaeus.
