Opis produktu

Jewel Case CD with 4 pages booklet.

From the primordial magma before the beginning of time come FOSSILIZATION. Obscure, vile and crushing Death Metal.

Fossilization is a death metal band formed in 2020. The duo featuring members of the sludge/death/doom metal band Jupiterian, V. (voices, guitars, bass) and P. (drums) started as an idea right after their european tour with Krypts, Father Befouled and Encoffination but since Jupiterian was still working on their last album, the project had to be delayed and it only turned to full time band after the striking of the plague.

Their 5 tracks debut EP, 'He Whose Name Was Long Forgotten' was recorded in their hometown, São Paulo - Brazil and mixed by Otso Ukkonen (Krypts).

For fans of Dead Congregation, Krypts, Phrenelith, Engulfed, Altarage
