Few bands embody the enduring power of old-school death metal quite like Funebrarum and Pestigore. Hailing from two of the genre's most respected strongholds, the United States and Finland, these underground veterans join forces on this exclusive split 7", creating a deadly link between the American and Finnish death metal scenes.

Featuring two tracks from each band, this release showcases everything that makes both acts stand out: Funebrarum's crushing, doom-laden brutality and Pestigore's dark, rotten take on classic Finnish death metal. A perfect meeting of two traditions united by a shared devotion to death metal's darkest roots.

Released by DOOMENTIA and limited to 800 copies: 200 on black vinyl, 200 on neon yellow vinyl, 200 on neon green vinyl, and 200 on gold vinyl. Featuring original cover artwork by Daryl Kahan. A must-have for all followers of true underground death metal.
