Opis produktu

This album is dedicated to He, whose name is three hundred and thirty three, and that thrice one.

333 is the title of Funeral Winds 8th studio album and refers to the Dweller in the Abyss, the Demon of Dispersion, also known as Choronzon. Seen as the last great obstacle between the adept and enlightenment, Choronzon needs to be faced to be able to move beyond the Abyss.

Stylistically, this album is raw and cold Black Metal that throws the grit right in your face.

Funeral Winds stays true to the original values of Black Metal, hateful and relentlessly contemptuous in sound and vision.

400x heavyweight black 12" (180g) in a black poly-lined innersleeve; insert 2page full-color printed on 250g, download card, jacket, full-color, black flood inside, printed on 350g, all assembled in a plastic overbag.
