Opis produktu

Black 10" vinyl in study printed disco bag in jacket. First pressing 2,000 copies worldwide.

Gaahls WYRD, the eponymous brainchild of one of black metal's most iconic and enigmatic figures, has returned with a hypnotic new EP! 'The Humming Mountain' follows the band's critically-acclaimed debut album, 'GastiR - Ghosts Invited,' and sees the latest evolution of the esoteric dark metal project's sound. The five song offering creeps in like a whispering demon, slowly entrancing the listener with its deep, dark gaze before it sinks its teeth in and drags you into the all-consuming abyss.

For fans of: BLUT AUS NORD, GORGOROTH, RUINS OF BEVERAST, TRELLDOM
Cover art: Kristian "Gaahl" Espedal
