Opis produktu

CD in deluxe 3-panel Digipak.

GAAHLS WYRD, the eponymous brainchild of one of black metal's most iconic and enigmatic figures, has returned with a hypnotic new EP! 'The Humming Mountain' follows the band's critically-acclaimed debut album, 'GastiR - Ghosts Invited,' and sees the latest evolution of the esoteric dark metal project's sound. The five song offering creeps in like a whispering demon, slowly entrancing the listener with its deep, dark gaze before it sinks its teeth in and drags you into the all-consuming abyss.

For fans of BLUT AUS NORD, GORGOROTH, THE RUINS OF BEVERAST, TRELLDOM.
