Opis produktu

Galibot is a melodic black metal band – but it is also the name given to children who were sent to work in the mines of northern France. And for good reason, as the quintet hails from there. At the beginning of 2026, the band released an alternative version of their first album, entitled ‘Euch’Mau Noir bis’, signed by Les Acteurs de l’Ombre Productions. Initiated in 2023 by Thomas, Agathe and Clément, the project, initially a studio project, aims to establish a parallel between the raw and visceral dark matter that is coal and black metal music. Wallers-Arenberg, the name of the town where the project was born and which bears the scars of the mining industry, was the demo for what was still only a trio. Following the release of their first album, ‘Euch’Mau Noir’, Galibot decided to try their hand at live performances, and Julian and Rob joined the band. This collaboration ultimately led them to write their second album together, this time as a five-piece, to be released next May on Les Acteurs de l’Ombre Productions. Galibot will also be hitting the road to offer a cavernous live experience of fire and ashes.

credits

released February 20, 2026
