Opis produktu

Arizona newcomers **GATECREEPER** deliver 9 monstrous songs of low-end, old-school death metal on their savage debut album *Sonoran Depravation*. Having devastated the underground since their formation less than three years ago, **GATECREEPER** now unleash their first full-length, produced by Ryan Bram at Homewrecker Studios and mixed by Kurt Ballou (Converge, Nails, Black Breath) at GodCity Studios. *Sonoran Depravation* tears and chugs through 30+ minutes of crusty, doom-soaked death metal at its most infectious and uncompromising with a massive sound that calls to mind the classic Swedish buzz-saw attack of Dismember and Grave mixed with the impeccable groove of Obituary and Bolt Thrower. **GATECREEPER** are here to carry the death metal torch for a new generation and will shake your foundation to its core.
