Opis produktu

Diehard sneezed pus splatter vinyl (marbled gold-brown) + OBI strip

2nd pressing, new version with revised & corrected back cover. Another Swedish goregrind gem exhumed by F.O.A.D. Records! GENERAL SURGERY "Demos 1990" LP, co-released with Nuclear Abominations Records. 21 years after the original (and now really hard to find) double 7" edition on Nuclear Abominations, here's a brand new edition of the collection of legendary G.S. demos. These Swedish forensic maniacs featured members of Dismember, Carnage, Carbonized, Crematory and Regurgitate among their ranks and quickly became one of the leading names in wordlwide top tier pathological grind. This collection features their 1990 demotapes:
- "Erosive offals (Malignant necrotomy)"
- "Pestisferous anthropophagia"
- "Internecine prurience"
12 songs of high level early Carcass inspired gore-core deeply rooted in Swedish death metal! LP with foldout 11"x22" insert.
