### Opis produktu

Dank, putrid death metal from Tampere, Finland. Far away from the polished, trigger happy wankathons of latterday DM, Ghastly breathe life into a genre that went stale and commercial ages ago but has sprung new festering buds in the darker corners of the underground of late. A fine cross between oldschool swedeath and the doom death hybrid of the early 90s the Finns were so annoyingly good at, this two track EP is a most welcome whiff of the macabre to anyone with half an ear for festering, tomb cracking death metal. Let the divine fire consume you.

Ltd. to 500 copies on black 7" vinyl in reverse print cardboard sleeve, specifically designed as a tribute to classic EP covers by Crom and Amorphis.
