Opis produktu

2nd pressing with the exact same layout as the first. Pressed on black vinyl, neon yellow vinyl (ltd 300) and half gold/half black vinyl. Comes with a lyrics insert.

Originally released in 2014, Voitto Tai Valhalla is the grand culmination of a particularly prolific period for this Finnish black metal stronghold following 2011's now-classic Varjot. With that album, mainman BlackGoat Gravedesecrator had established an acute balance between stately professionalism and burning-hot hatred, but arguably bettered that balance with the follow-up Voitto Tai Valhalla. Triumph and tragedy still waged war across GOATMOON's paradigmatic Finnish black metal, but here, the disparity between extremes was more pronounced - the moments of folkish repose more restful, the scorn simply searing - but just as compelling as ever. As such, it followed a stoic 'n' stirring song-cycle that truly invoked such titular themes as "Tears of Our Fathers" and "Race of Heroes." Blood, fire, and death are back again - and for the first time ever, on vinyl.
