Opis produktu

Obscura is the landmark 3rd album by Canadian death metal pioneers GORGUTS, originally released in 1998 and widely regarded as a cornerstone in extreme metal history.
With this album, Gorguts shattered the conventions of traditional death metal with dissonant guitar work, fractured song structures, and an original approach to rhythm and harmony.

An album that have been universally acclaimed for its coldness, complexity and uncompromising avant-garde and technical death metal!

700x grey with heavy aqua blue splatter 2x12" in black poly-lined innersleeves, insert full-color printed on 150g art-paper, gatefold jacket, full-color printed on 350g carton, coated paper, all assembled in a plastic overbag.
