Opis produktu

Eight fierce anthems to the Plutonian sphere, ferociously burning yet blood-freezingly cold and older than time.

Eight pernicious compositions twisting like snakes between dimensional boundaries, eager to lash out with venomous precision.

Eight auricular wormholes to where rapture reigns and time has ceased to be.
A tearing odyssey of hatred and melancholy coupled with the wrath and determination of spirits on fire.

Beware the death-dealing poison of the astral scorpions of the Netherworld and the insatiable hunger of the howling wolves of the eclipse.

A 38-minute long journey through thousand aspects of the dark and beyond.
