Opis produktu

GRAVE don't follow trends, don't care about the next big thing. Since forming out of the ashes of Corpse in 1988, they have made death metal their own. GRAVE have influenced many other bands and musicians in the world. As Ola Lindgren says: "Even within metal music. Death metal fans are among the most loyal there are. And that's why the genre and all its great bands are still going strong." Recommended for fans of Benediction, Bloodbath, Bolt Thrower, Carnage, Dismember, Entombed, Unleashed, Vomitory.
