Tour de Garde 2018

Limited to 300 copies on black vinyl with printed labels. Includes band picture and lyrics on the inside of the cover artwork.

Grifla da la Secta present their debut offering, "Dyrs føde", which is a big step further their tracks featured on the "Korpsånd" compilation. This 7"EP is featuring two tracks of mysterious, heavily built, gloomy black metal composed in a unique way. The strong sonic identity of Grifla da la Secta goes hand in hand with the strong concept behind the project. They speak with a forked tongue – cleaved to point out two paths. The right path is delivered in Danish. The left in Romansh. This duo has no home... This split 7"EP comes on black vinyl and is limited to 300 copies.
