2030 x Translucent Green Standard Gram

After exploding onto the death metal scene in 2015 with their *Leprosy*-inspired full-length debut *Savage Land,* death metal wrecking crew **GRUESOME** (featuring current and former members of Exhumed, Possessed, Malevolent Creation, and Derketa) returns in 2016 with a new EP entitled *Dimensions Of Horror*. Self-produced by the band and recorded with Jarrett Pritchard at New Constellation Studios in Orlando, FL, *Dimensions of Horror* is a gruesome salute to **DEATH**'s iconic *Scream Bloody Gore* and once again features cover art by the legendary Ed Repka (**DEATH**, Atheist, Massacre). A six-song slab of grisly, bone-breaking death metal jams, *Dimensions Of Horror* continues the development of **GRUESOME**'s homage to the founding fathers of the genre and proves that no matter the decade, old-school death metal is always relevant, always savage, and always irresistible.
