Opis produktu

Formed in the Dimension of Chains, with cosmic chaos and deathmagick, **Hasturian Vigil**L seek to relinquish mortal ignorance with their brand of black metal, inspired by Mortuary Drape, Absu, Mercyful Fate, Negative Plane, and Zemial as well as a dose of classic heavy metal. Both familiar and foreign, the resultant four-song *Unveiling the Brac'thal* debut album comprises 33 minutes of epic, archaic splendor – labyrinths of majesty & malice that scourge the mind and body with equal relish. You want riffs? There are RIFFS. You want leads? There are LEADS. What about mystery and mysticism? Tons. A veritable bounty of black METAL, the Riddle of Steel draped in sensuous obsidian.

Indeed, the Irish two-piece walk their own path across *Unveiling the Brac'thal*, conceptualizing an entirely original mythos, inspired by authors such as Lovecraft, Machen, Lord Dunsany, and Yeats. This "Yith-Melle" mythos is embraced with their fascination for cosmic dread, deranged pantheons, and unspeakable curses! Thus, the power-duo of Cxaathesz and Shygthoth strike both as guides and teachers, torches ablaze with illumination almost incomprehensible to mere mortals. Prepare for the preachings of **Hasturian Vigil**!

In the scriptures of mortal men, there exists a pallet of stars and flesh...
Yith-Melle, the dimension of chains...
Where the resonance of deathmagick spurted the cosmic architect, decorated in a million eyes and teeth...
The creator of plague and torment...
A crack in the world has opened...
To unveil the Brac'thal...
