Opis produktu

Named one of CVLT Nation’s “Top 6 New Bands You Must Hear Today”, Heavydeath was formed with the purpose of creating and playing some kind of “heavy death” music. The music is recorded as a trio. No frills: just guitar, bass, drums, and some vocals on top/inside of it. To date, Heaydeath have recorded four demos, alternately released on cassette and digital formats.

Slated for release on March 6th via Svart, the debut album of Heavydeath was recorded under rather simple conditions in the summer of 2014: simply a drum-kit, a bass, and a guitar and with no overdubs. In the landscapes of heavy riffs, there are also some chanting vocals here and there in the songs, too. As the band state, “We have, just like the previous demo recordings, tried to keep the material straight and ‘primitive’ in the same Heavydeath style. We enjoy creating small details like morbid dis-harmonies and melodies in the riffs, but we have also tried to make it sound a little different than previous recordings. It would be boring if the album sounds exactly like the demo recordings. One thing is, for sure, it sounds heavy as death.”
