### Opis produktu

The Spectre of Lonely Souls will be the second full-length from Chilean thrashers Hellish. This is high-velocity almost out of control thrash with a fog of evil hanging around it as patented and perfected by South Americans going back to the mid-80s. Fans of their labelmates Ripper or of course of Hellish's debut album Grimoire should find plenty to love here. Steeped in original-vintage speed metal with some of the intense atmosphere of proto-black metal Hellish's new album is in every way the best material yet from this young band.
