## Opis produktu

Re-issue of Horna's ninth full length album, Hengen Tulet, as Digipak CD, incl. a 12 pages booklet. The Band's previous full length album "Askel lähempänä Saatanaa" was something of a throwback to mid '90s black metal classicism. By contrast, Hengen Tulet carries forward a similar songwriting aesthetic - surging 'n' swooshing speed, spiraling melody both majestic and malevolent - but reinvigorates a foul, fetid primitivism. It's still a supremely varied yet focused spin, compact (and caustic) as ever, but the headbanging, hard-charging tropes are surely a sign of HORNA's well-oiled machinery lately on the live front, where Spellgoth has cultivated no small amount of infamy for his penetrating performances.

The third glorious epoch of HORNA continues with Hengen Tulet...
