Opis produktu

Horrendous' 2010 demo titled "Sweet Blasphemies" was merely a brief showcasing of this band's tremendous potential. In addition to the CD-r version of the demo, two separate 200 copy pro tape pressings were made and sold; first via a cooperation with Dark Descent and Skeleton Plague then later through Dark Descent Records.

Horrendous' debut full-length titled "The Chills" is a full-on assault of the aural senses. Horrendous mixes HM-2 sound with unique melody and solos creating memorable and terrific songwriting . This is no "retro" band but a band that has clearly created a nine-song death metal masterpiece ending with the epic nine-minute closer "The Eye of Madness."

Do not mistake this band for a clone of Entombed, Autopsy or Incantation. Doing this would be a great disservice to a masterful album and you would obviously miss out on what will be one of 2012's best death metal albums, hands down.

Cover art by Raul Gonzalez (Morbus Chron, Deceased, etc.) adorns this eight page booklet.
